

# PROJECT ECHO NL: OPIOID USE DISORDER

Session 6: Tuesday, February 16, 2021

## Decoding Urine Drug Screens (UDS)

Tuesday, February 16, 2021

12:00 – 1:00 pm NST

### Learning Objectives:

At the conclusion of this activity, participants will be able to:

- Interpret the current evidence surrounding the rationale and effective use of UDS.
- Distinguish between the two main analytical methods used in reporting UDS, their uses and potential limitations.
- Adequately apprise the role of UDS in the management of OUD and apply this knowledge in his/her current practice setting and with individual patients.
- Identify the variables which influence interpretation of UDS results.
- Have increased confidence in their ability to accurately interpret and act upon the results of a UDS.

### Speakers:

**Dr. Stephen Darcy, MD, CCFP, FCFP**  
Assistant Professor of Family Medicine  
Faculty of Medicine (Memorial University)

**Dr. Ed Randell, PhD DCC FCACB FAACC**  
Division Chief (Clinical Biochemistry) and Professor  
Laboratory Medicine (Eastern Health) and Faculty of Medicine  
(Memorial University)
