

PROJECT ECHO NL: OPIOID USE DISORDER (CYCLE 1)

Session 11: Tuesday, May 31, 2022

Opioid Agonist Treatment and Continued Substance Use: How Harm Reduction Improves Patient Outcomes

Tuesday, May 31, 2022
8:30 – 9:30 am NDT

Learning Objectives:

At the conclusion of this activity, participants will be able to:

- Define harm reduction and summarize evidence supporting its use.
- Describe the health and safety benefits of harm reduction specific to opioid agonist treatment for clients who are using other substances.
- Weigh the harms versus benefits of tapering opioid agonist treatment in a client continuing to use substances.

Speaker:

Dr. Adam Newman, MD FCFP(AM) CCSAM

Family Practice Obstetrics, Harm Reduction & Addiction Medicine

Assistant Professor, Queen's University Departments of Family Medicine, Paediatrics, and Psychiatry

Kingston, Ontario

Registration Information:

Sessions take place on Zoom.
